PROFILE

I am a passionate and dedicated web and mobile developer creating dynamic and user-friendly digital solutions. My expertise lies in crafting responsive websites and intuitive mobile applications that not only meet the needs of users but also drive business success.

WORK EXPERIENCE

Freelancer on Fiverr/Upwork
2021- 2024

- Experienced freelancer specializing in building responsive web and desktop applications. I also offer professional digital design services to create visually appealing and user-friendly interfaces. Dedicated to delivering high-quality solutions tailored to your needs.

Computer Sience teacher
2023- 2024

- Experienced computer science teacher offering courses in Python, web development (HTML and CSS), and databases. Passionate about helping students grasp complex concepts and develop practical skills. Dedicated to delivering engaging and comprehensive lessons tailored to diverse learning needs.

PROJECTS

School management platfrom

- Schools can efficiently manage operations with features like student and teacher management, scheduling, QR code attendance tracking via mobile app, and streamlined communication through important announcements.

School management app

- The mobile app seamlessly integrates with the school system, allowing teachers to manage classes, track attendance via QR codes, and access announcements, ensuring efficient classroom management and enhanced communication.

Ecomerce Website

- E-commerce platform offers a seamless shopping experience with a dynamic product catalog, easy cart management, secure Edhahabia card payments, and responsive design for smooth browsing on all devices.

WebCam Meeting Platform

- This webcam meeting website enables users to set up and share meeting links effortlessly, ensuring a secure and user-friendly online meeting experience across all devices.
